

Carbon Reduction Plan

Supplier name: Crosby Granger Architects Ltd

Publication date: 05 December 2025

Commitment to achieving Net Zero

Crosby Granger Architects Ltd is committed to achieving Net Zero emissions by 2050. We will keep this date under review, bringing it forward if possible as our carbon reduction plans develop.

Baseline Emissions Footprint

Baseline Year: 1 st July 2024 to 30 th June 2025		
Additional Details relating to the Baseline Emissions calculations. This represents the first year of carbon reporting, so baseline and current year are the same.		
Baseline year emissions (tCO_{2e}):		
Scope 1		9.44
Scope 2		0.94
Scope 3		29.43
Included Scope 3 categories	1. Purchased goods & services	15.37
	2. Capital goods	0.00 ¹
	3. Fuel- and energy-related activities	1.92
	4. Upstream transportation & distribution	0.00 ²
	5. Waste generated in operations	0.26
	6. Business travel	8.20
	7. Employee commuting	3.68
	9. Downstream transportation & distribution	0.00 ³
Total Emissions		39.82

¹ No capital goods were purchased in 24-25.

² This category is not relevant to Crosby Granger Architects as no physical products are sold or supplied.

³ This category is not relevant to Crosby Granger Architects as no physical products are sold or supplied.

Current Emissions Reporting

Reporting Year: 1st July 2024 to 30th June 2025		
Additional Details relating to the current emissions reporting calculations. This represents the first year of carbon reporting, so baseline and current year are the same.		
Reporting year emissions (tCO₂e):		
Scope 1		9.44
Scope 2		0.94
Scope 3		29.43
Included Scope 3 categories	1. Purchased goods & services	15.37
	2. Capital goods	0.00 ⁴
	3. Fuel- and energy-related activities	1.92
	4. Upstream transportation & distribution	0.00 ⁵
	5. Waste generated in operations	0.26
	6. Business travel	8.20
	7. Employee commuting	3.68
	9. Downstream transportation & distribution	0.00 ⁶
Total Emissions		39.82

Emissions reduction targets

The organisation is committed to achieving Net Zero emissions by 2050 at the latest. We will keep this date under review, bringing it forward if possible as our carbon reduction plans develop.

Carbon Reduction Projects

Completed Carbon Reduction Initiatives

The following environmental management measures and projects have been completed:

- The organisation achieved Green Small Business Certification in December 2025, having developed an environmental policy and comprehensive action plan addressing all of the significant environmental impacts of the business.
- 16 solar panels have been installed on the roof of the Crosby Granger Architects office to generate renewable energy.
- Crosby Granger Architects have installed bespoke secondary glazing throughout the building to increase thermal efficiency and assist with heat retention.

⁴ No capital goods were purchased in 24-25.

⁵ This category is not relevant to Crosby Granger Architects.

⁶ This category is not relevant to Crosby Granger Architects.

- All lighting in the offices is LED.

Planned Carbon Reduction Initiatives

Our environmental action plan commits us to the implementation of further measures which we anticipate will reduce the carbon intensity of the organisation, such as:

- Exploring options for low carbon heating at Crosby Granger Architects' office.
- Exploring feasibility of installing battery storage for electricity generated on-site from solar array.
- Implementing a 'use of transport' policy to reduce emissions from business travel.
- Facilitating access to low carbon vehicles for our staff.
- Ensuring environmentally responsible purchasing for all goods and services.
- Further development of our sustainable design principles and communicating these with key stakeholders.

Declaration and Sign Off

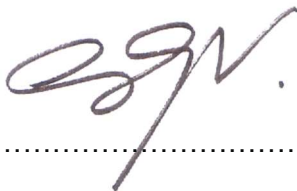

This Carbon Reduction Plan has been completed in accordance with PPN 006 and associated guidance and reporting standard for Carbon Reduction Plans.

Emissions have been reported and recorded in accordance with the published reporting standard for Carbon Reduction Plans and the GHG Reporting Protocol corporate standard⁷ and uses the appropriate Government emission conversion factors for greenhouse gas company reporting⁸.

Scope 1 and Scope 2 emissions have been reported in accordance with SECR requirements (where required), and the required subset of Scope 3 emissions have been reported in accordance with the published reporting standard for Carbon Reduction Plans and the Corporate Value Chain (Scope 3) Standard⁹.

This Carbon Reduction Plan has been reviewed and signed off by the board of directors (or equivalent management body).

Signed on behalf of the Supplier:
